Getting ISO Certification in Dubai is an objective to standardize companies to meet International Quality Standards by providing value-added services. Also, ISO certification helps to boost your business quality additionally overall potential of the business.

Growing Demand for ISO Certification in Dubai

The ISO 9001:2015 Quality Management System provides a unique framework for any organization to enhance process quality and deliver standardized products and services to the customers.

The ISO 9001:2015 Quality Standards are widely being implemented in many service organizations, Trading Companies, manufacturing/ Industrial Companies.

The requirement of high-quality Standards from Global markets and tough competition among brands has led to enhanced demand for Quality Standards regionally and internationally.

Organizations are transforming to become more efficient; reduce operational expenses, and meet the needs of the international market. Companies are predominantly engaging in long-lasting quality improvement efforts to scale up and achieve competitive advantage.

Hence, Quality Management System implementation becomes an important part of any organization's business goal. ISO Certification on a wide range of ISO Standards depending on the nature of business is available for organizations to choose from.

ISO Certification Auditing in UAE

Certification, the ISO Auditing is a 2 – staged process with the first one being the Internal Audit and the second is the final Audit conducted by the ISO Certification Body.

The Internal Audit is conducted by the ISO Consultant once the Quality Management System is in place. The internal Audit will ensure whether the Quality Manuals are updated according to the ISO Standard guidelines and also the quality processes are implemented and put to use in the right way.

Once the internal audit is conducted and management is notified with any process improvements, the final audit where the certification body inspects the Quality Policy Manuals and ensures other checks for compliance with ISO certification is met by the organization.

Post assessment of the QMS system and the processes, the organization will be awarded ISO Certification accordingly.

ISO certification services will cover special training, gap analysis, documentation, implementation assistance, internal audit, pre-assessment audit, assistance in selection of the ISO certification body and ensuring successful completion of the ISO certification audit.
